

Andrew Koreikin

Senior Frontend Developer

Tbilisi, Georgia | +995 511 419 268 | ankormoreankor@gmail.com | [LinkedIn](#) | [GitHub](#) | TG: [ankormoreankor](#)

SUMMARY

Senior Frontend Developer with 8 years of commercial experience, specializing in frontend architecture, design systems, and accessibility. Product-minded with a focus on user experience, business value, and code quality. Proficient in modern frontend development stack, primarily React and Typescript. Enthusiastic about contributing to innovative and impactful projects.

SKILLS

Core Stack: React, TypeScript, Next.js, Node.js, Vue 2, React Router

Design Systems & UI: UI Architecture, Tailwind CSS, Storybook, Figma, Design Systems

State & Data: TanStack Query, Redux, React Hook Form, Zod

Testing: Vitest, Jest, React Testing Library, Cypress

Tooling & Infrastructure: Vite, Turborepo, Git, GitHub Actions, Webpack, FSD

Others: AWS, API Design, Webpack, web performance optimization

Agents: Cursor, Claude Code, Copilot, MCP servers, token-efficient agentic workflows

Languages: English (C1), Russian (Native)

PROFESSIONAL EXPERIENCE

Pixel Point (UK) - Creative web-agency with worldwide clients

Senior Frontend Developer

Nov 2025 – Feb 2026

- Improved accessibility of the primary navigation on [neon.com](#) (**1M MAU**) by implementing full keyboard support with branded focus/hover states.

Harness (USA) - Enterprise-scale software delivery platform

Senior Frontend Developer (Contract)

Jan 2025 – Nov 2025

Harness is an **enterprise-grade startup** with hundreds of customers, including City, United, Twilio, and others.

- Contributed to the next-generation Unified UI (design system) by developing **10+ components** from spec to production.
- Contributed to Gitness (Open-source code hosting & pipeline engine) by developing new UI, integrating design system components into the platform, and improving overall accessibility.
- Worked on 8 projects in parallel insuring stability and consistency of design system implementation across the enterprise platform.
- Collaborated with UX/UI teams during the design phase, highlighting frontend and accessibility issues before implementation.
- Worked as an embedded contractor within Harness's async and distributed engineering team.

Frame (USA) - Pre-Seed startup, AI-powered company workspace

Senior Frontend Developer

Mar 2023 – Nov 2024

- Reduced average feature development time **from 10 days to 4** by separating shared components and logic from 5 isolated modules and migrating the design system.
- Stabilized the app UI by covering **100+ components** with Storybook stories and testing them in Chromatic.
- Reduced new bugs by roughly 10x** by tightening linter rules, removing dead code, and increasing type safety across the app.
- Reduced the cost of cross-package changes by migrating 5 frontend repos to a monorepo.

buildbuild (Luxembourg) - AI automation platform tailored for Construction and Real Estate

React Developer

Sep 2021 – Dec 2022

- Reduced bulk document selection time by 5x by implementing a Gmail-style multi-select pattern.

HIGHER EDUCATION

Southern Federal University (Russia)

June 2012

Bachelor degree in Inorganic Chemistry

ADDITIONAL EDUCATION:

HTML Academy

2017 - 2018

Frontend Development Program

EXTRA-CURRICULAR ACTIVITIES

Designed and ran a summer internship program in the frontend discipline for more than 80 university students.

Mentored 30+ students in the HTML Academy front-end development program.
